

Product Fact Sheet

Keyspan USB Server

Connections for your Computer 1 510 222 0131

Share USB Printers, USB Scanners, and More!

The USB Server makes it possible for USB printers, USB scanners and other USB devices to be used and shared by client PCs on a Local Area Network (LAN). It is ideal for home office, small office and classroom use. The USB Server supports both Ethernet and Wi-Fi networks -- making it easy to print to a USB printer from a Wi-Fi based laptop.

Connectivity to USB Devices

- 4 USB Full-Speed ports (12 Mbps).
- Full 500mA power provided to each port.

Connectivity to Network

- RJ45 Ethernet connector.
- 10/100 autosensing.
- IP addressing : Static/DHCP/Rendezvous.

Compatible USB Devices

USB Server software supports USB printers, multi-function printers, scanners, storage devices, PDAS, digital cameras, serial adapters, mice, keyboards, and more. USB printers may be shared on an automatic basis. Other USB devices are shared on a "one user at a time" basis. USB audio/video products are not supported at this time.

Requirements

- Macintosh: Mac OS X v10.2.8 or greater
- Windows: Windows 2000, Windows XP or greater.

Patents pending.
